

Constant velocity joints

Constant velocity joints

Sectors

Passenger cars and off-road vehicles

Applications

Power train

Weight-size

From 0.5 to 15 kg

Plus

- Extrusion/upsetting
- Net shape
- Warm forging

Description

Based on our prior experience, we specialize in net-shape pieces for the automotive sector.

Warm forging technology increases competitiveness and accuracy of the forging products.

We also develop and provide products for special applications and off-road vehicles that require small batches and more important dimensions.
