

# Finished axle shafts

# Finished axle shafts

## Sectors

Commercial vehicles, off-road vehicles, construction equipment and agricultural machinery

## Applications

Drive axles, power train

## Weight-size

From 5 to 70 kg from 500 to more than 1,500 m

## Plus

- In-house verticalization
- Full service (OEM and AM)
- Automatic machining lines

## Description

Fifteen years ago, Casartelli Antonio made the strategic choice to provide finish product to the manufacturer, ready for the assembly line needs. A dedicated shop specialized with CNC machining for turning, spline and induction hardening allow us to produce different finished products:

flanged axles and drive shafts over 1,500 mm in length. Product quality is assured by 100% automatic line for non-destructive test performed by qualified employees.
